# Obtaining a permit for a Best Barns shed or garage kit

Do-it-Yourself kits from Best Barns are designed for use as storage buildings or garages only. Use for any other purposes is neither implied nor inferred.\*

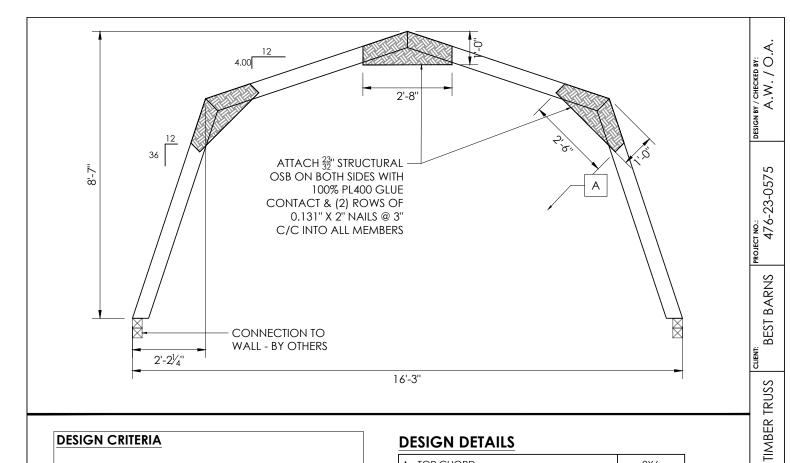

Building code offices and HOA's may require additional documents to obtain a permit. The homeowner's first step is to contact their local code office and ask what is needed for the size of building to be purchased.

Typically, the necessary documentation may include some or all of the following.

- o Elevations showing at least two sides of structure.
- o Site plan showing existing structures and proposed build site.
- o Engineered drawings for truss system indicating snow and wind load ratings.\*\*
- o Cross sections of wall framing and foundation.
- o Tie down locations for high wind load areas.\*\*\*

Permit requirements vary based on location. Some areas may not require a permit at all. The documents provided by Best Barns are intended to help the homeowner with the permit process but do not guarantee a permit will be issued. It is the homeowner's responsibility to determine if a permit is required and submit the necessary documentation.

- \*Any alteration to the construction of Best Barns sheds or garages may require the services of a civil engineer to meet local building codes. Best Barns cannot provide these additional services.
- \*\* Engineered truss drawings stamped for your individual state can be obtained upon request. Some models do not have wind and snow load ratings. A non refundable fee will be required to purchase stamped drawings. Contact us directly at 800-245-1577 for further details.
- \*\*\* Certain states such as Florida and California have stringent requirements for obtaining a permit. Depending on your location, a civil engineer's services may be required to provide necessary documents. These services are the homeowner's responsibility to obtain from an engineer within the state of build location and are not included in the purchase of a shed or garage kit.

### **DESIGN CRITERIA**

INTERNATIONAL BUILDING CODE IBC 2021, IBC 2018, IBC 2015 DESIGN CRITERIA

DEAD LOAD (D):

ROOF COLLATERAL DEAD LOAD 2.5 PSF

LIVE LOAD (Lr):

**ROOF LIVE LOAD** 20 PSF

SNOW LOAD (S):

GROUND SNOW LOAD 45 PSF SNOW LOAD IMPORTANCE FACTOR (Is) 1.0 EXPOSURE FACTOR (Ce) 1.0 THERMAL FACTOR (Ct) 1.1 34.65 PSF GOVERNING ROOF SNOW LOAD

UNBALANCED SNOW LOAD 45 PSF

WIND (W):

ANALYSIS PROCEDURE: ASCE 7-10 / ASCE 7-16 BASIC WIND SPEED: 130 MPH **EXPOSURE CATEGORY:** С

LOAD COMBINATIONS:

1.0 D + 1.0 L

1.0 D + 1.0 (Lr or S)1.0 D + 0.75 L + 0.75 (Lr or S)

1.0 D + (0.6 W)

1.0 D + 0.75 (1.0 W) + 0.75 L + 0.75 (Lr or S)

0.6 D + 1.0 W

#### NOTES:

- UNBALANCED SNOW LOADS HAVE BEEN CONSIDERED IN THE DESIGN.
- WIND LOADING IS BASED ON 3-S GUST ULTIMATE WIND SPEED, EXPOSURE C, PER ASCE 7.
- LOADS ARE BASED ON RISK CATEGORY II.

SEE ADDITIONAL SHEETS FOR MEMBER CHECKS.

### **DESIGN DETAILS**

# Cross Section 16' Wide Buildings

Best Barns model:
□ Jefferson
□ Richmond
□ Roanoke
□ Virginia
☐ West Virginia
16ft. wide xft. long

Manufactured by: RBS Holdings, LLC. 205 Arlington Drive Greenville, PA 16125 phone: 800-245-1577 fax: 724-646-0772

# Truss & Wall Cross Section

Top of wall inclusive of loft floor joists, Subfloor, wall framing and truss cross sections.

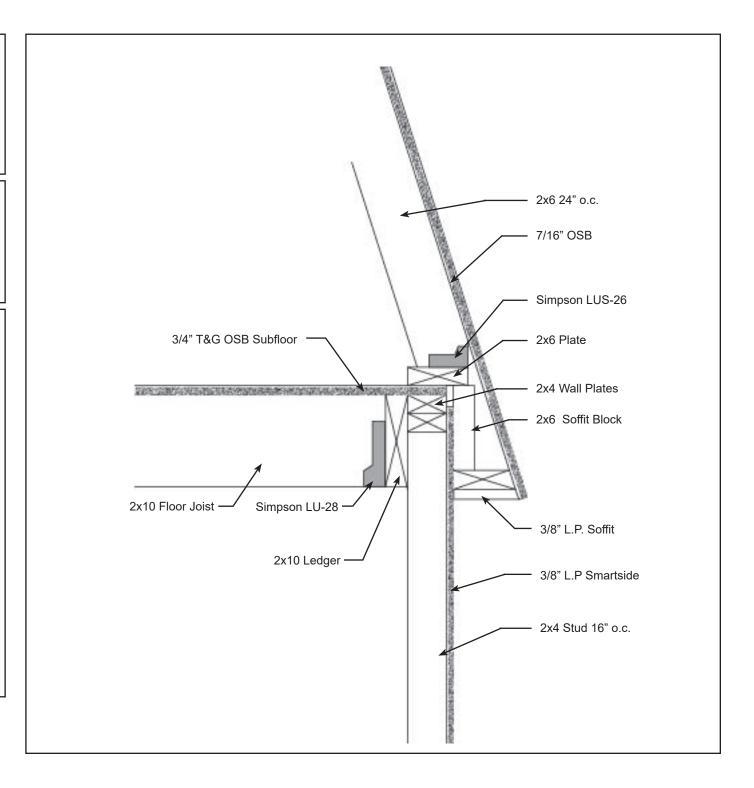

Drawing not to scale.

### **Instructions:**

Homeowner may provide additional information as appropriate.

### Notes:

Refer to installation manual for further detail.

### Richmond / Roanoke

16ft. wide x \_\_\_ft. long 2 Story Gambrel Building

Manufactured by: RBS Holdings, Inc. 205 Arlington Drive Greenville, PA 16125 phone: 800-245-1577

fax: 724-646-0772

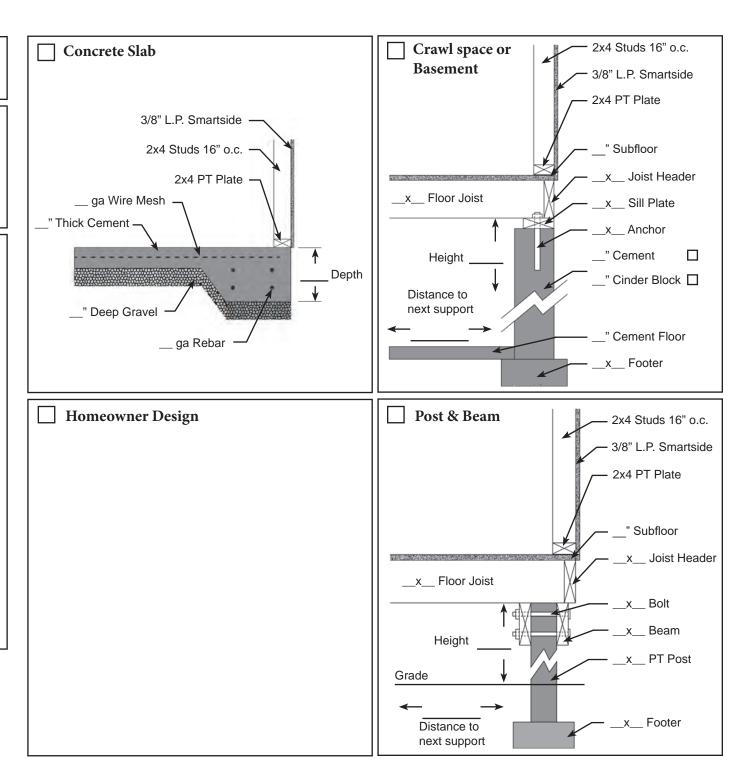

# Common Foundation Cross Sections

This document illustrates common foundation types which can be used for construction of either the Richmond or Roanoke models. Alteration may be necessary to conform to homeowners intended use and or permitting requirements. Drawings not to scale.

#### **Instructions:**

Check appropriate foundation cross section and provide specifications as necessary.

Homeowner may also design and draw in space provided for custom foundation type.

Site Plan for:	

Manufactured by: RBS Holdings, Inc. 205 Arlington Drive Greenville, PA 16125

phone: 800-245-1577 fax: 724-646-0772

## **Instructions:**

Draw property line, existing structures and proposed placement of building.

Homeowner may also be required to show trees and shubs. Check with HOA or permit office for requirements.
